New EMV Cards Offer Added Security!

If you have a JCFCU debit card, watch your mailbox this fall for our new EMV chip card. Your new card will contain an embedded EMV microchip. The chip holds information that is encrypted, making it extremely difficult for the card to be copied or counterfeited. Rather than swiping your card, you insert the chip card into an EMV-compatible terminal. The card will still have a magnetic stripe on the back so you can use it at merchants who have not yet switched to the chip-enabled terminals.
